INTRODUCTION & SUMMARY

The following report contains post-graduate data for degree, certificate, and specialized diploma program recipients obtained through a survey conducted by the Center for Career Development. Graduates receive the survey through Workday and Handshake emails, text, hand-delivered postcards with QR code at graduation and in addition, follow-up phone calls (up to 3 per graduate) are made by members of the Center staff. Faculty are also contacted regarding their knowledge of graduate employment or transfer plans. In addition, post-graduate information is obtained from the National Student Clearinghouse, Live Alumni Platform and social media. Graduates may complete the survey online through the Career Development/Alumni webpage.

The National Association of Colleges and Employers (NACE) institutes standards and protocols regarding the collection of data. NACE uses the term "knowledge rate" to indicate response rate because outcomes may be derived from legitimate sources beyond the traditional survey as long as the data are reliable and verifiable. The term reflects that practitioners can have "knowledge" about the outcomes of graduates through information provided by faculty, academic advisors, employers, social media, and other sources.

The Class of 2022 is comprised of individuals who completed their programs in August 2021, December 2021, and May 2022 a total of 1372 graduates who completed 1421 degrees. * The knowledge rate for the Class of 2022 is 66%. All percentages reflect the total number of respondents for each program.

Following are some of the highlights from the report:

- 96% of the respondents were either employed or continuing their education. According to NACE, this is defined as the "career outcome rate."
- 2% of the respondents from associate degree programs chose not to seek employment at this time. 3% of respondents from Specialized Diploma programs chose not to seek employment at this time.
- 80% of the employed career program respondents were employed in a position related to their program of study, and 13% were employed in unrelated positions by choice. Therefore, 93% were engaged in employed activities of their choice.
- 72% of the respondents from transfer programs were continuing their education.
- 80% of the respondents in Specialized Diploma programs were employed in a related position. 6% were employed in unrelated positions by choice. Therefore 86% were engaged in activities of their choice.
- 37% of the career program respondents were continuing their education.

*Several graduates earn more than one degree. Beginning with the Class of 2022 we will report the number of graduates and the number of degrees conferred.

- Overall, 53% of the respondents were continuing their education.
- Graduates continued their education at 80 different educational institutions with the following colleges/universities receiving the highest number of graduates respectively:

East Stroudsburg University	85
Kutztown University	36
Moravian University	29
DeSales University	23
Penn State University	21
Temple University	18
West Chester University	11
Bloomsburg University	8
Drexel University	8
Lehigh University	7

- 61% of the respondents continued their education at public-supported colleges in Pennsylvania.
- 24.5% of the respondents continued their education at private institutions in Pennsylvania.
- 14.5% of the respondents continued their education outside of Pennsylvania.
- 14.8% of the respondents continued their education at Northampton Community College.
- 5% of the Career and Transfer associate degree respondents and 5% of the Specialized Diploma respondents were still job hunting when this report was completed and went to press.
- Salaries are included only if 2 or more graduates report their salary. Many factors influence salaries including the geographic location of the employer and job, type of industry, employer size, supply and demand, education, and experience and if the job was held prior to and/or during the individual's experience at Northampton Community College.

*Several graduates earn more than one degree. Beginning with the Class of 2022 we will report the number of graduates and the number of degrees conferred.

The Board of Trustees endorses the principle of equal educational and employment opportunities for all people regardless of race, color, sex, religion, ancestry, national origin, age, sexual orientation, gender identity, or based on an individual's actual or perceived disability, or on a person's association with a person with a disability. Furthermore the Board does not discriminate on the basis of race, color, sex, religion, ancestry, national origin, age, sexual orientation, gender identity, or based on an individual's actual or perceived disability, or on a person's association with a person with a disability in the educational programs or activities it operates.

Inquiries may be directed to the College's Equal Employment Officer and ADA Coordinator at 610-861-5300 or TTY/TDD 610-861-5575.
